RESIDENCE 9 WINDOWS | CLOTTED CREAM ● GRAINED WHITE

My RESIDENCE *Case Study*

Georgian bar for an authentic timber lock

Nestled in the Peak District, adjacent to Lyme Park National Trust, this beautiful cottage sits peacefully in its surroundings.

The Residence Collection was chosen to replace the existing windows. The property sits in a Conservation Area, which means certain conditions and council regulations must be met when replacing windows.

"We'd been researching windows and the look of Residence 9 windows perfectly replicated traditional manufacturing methods as an alternative to timber."

R9 windows have been specifically designed to aesthetically replicate documented historical window designs from the 19th Century and therefore have been approved in many areas across the UK.

"We're extremely happy with the new windows and worth the investment. I would definitely recommend Residence 9 to friends!"
